

h.Energy

In October each year New Leaf (with support from the Bulmer Foundation and Herefordshire Council) run a 'Sustainable Herefordshire Week'.

The week is called h.**Energy** and is based on the successful h.Art model: local producers / householders / businesses / schools and communities open their doors to the public for all or part of the week.

Last year's event was hugely successful, with 20,000 event brochures delivered around the county, more than 50 events over the course of the week, and approx 2000 visitors to events.

This year we are hoping to make the event even bigger.

To be part of the week, and receive **free advertising** in the h.Energy Brochure, all you need to do is showcase the energy saving / sustainability work you are already doing, by putting on an event or opening your doors to the public at certain times during the week.

Studies show that we all love to learn by example, and best practice examples of all types of sustainable activities are of great interest to other people around the county.

The last day to register an event to be included in the h.Energy Brochure is the 1st August.
